

Feeney, Inc. Expands Product Offering With New CableRail Stair Assembly
Simplifies installation of CableRail on stair railings

OAKLAND, Calif. – April 14, 2017 – [Feeney, Inc.](#), a leading manufacturer of high quality stainless steel and aluminum railing systems, has added to its line a new CableRail Stair Assembly, a pre-packaged kit of materials and fittings created to streamline installation of CableRail on stair railings.

Specially designed for wood posts, the CableRail Stair Assembly package includes 20 feet of 1/8-inch diameter stainless steel cable with a Threaded Terminal Fitting attached to one end, a Quick-Connect[®] Pivot Fitting for the other end, and necessary nuts and washers. The Threaded Terminal end for the bottom stair post uses a beveled washer and special washer-nut for easy cable tensioning, while the Quick-Connect[®] Pivot Fitting enables convenient attachment of CableRail to the face of a wall or post at the top of a stair, especially beneficial in cases where limited access exists behind posts.

“Today’s homeowners increasingly view their exterior spaces as an extension of their homes, with many adding or updating decks and porches to enhance the functionality of their outdoor living environments,” said Andy Penny, vice president of marketing and advertising, Feeney, Inc. “As such, it’s more important than ever to provide easy-to-install building materials and systems. Feeney’s CableRail Stair Assembly provides another option for enabling quick installation of CableRail on stair railings while also offering the aesthetic appeal and reliability for which the Feeney line is known.”

Easily installed using a hanger bolt, the assembly’s Quick-Connect[®] Pivot Fitting requires no angled drill holes, and features Feeney’s Quick-Connect[®] automatic-locking-jaw technology – shortening installation time and minimizing the chance for errors. The 20-foot cable can easily be cut to size for use with most projects.

Feeney’s CableRail Stair Assembly can be added to current retail POP displays alongside the company’s best-selling standard assemblies, and is available now through Feeney authorized dealers.
