

CableRail

Quick-Connect® Expansion Anchor Tensioner

Feeney® Quick-Connect® Expansion Anchor Tensioners are used for for anchoring CableRail into masonry wall or posts. Expansion Anchor Tensioners are best for level railing applications. Use with Feeney Bulk Cable, sold separately.

FEATURES & BENEFITS

- For anchoring cables into masonry wall or posts
- Made of Type 316 marine-grade stainless steel
- Machined flats allow tools to securely grip the fitting without marring the polished surface
- Use 3/8" wrenches or the Feeney Wrench Wheel to adjust tension
- Typically paired with an Expansion Anchor fixed end fitting for one run of cable

QUICK-CONNECT® EXPANSION ANCHOR TENSIONER

QUICK-CONNECT® TECHNOLOGY

Feeney Quick-Connect® fittings offer the flexibility of assembling cables in the field with simplicity and speed. Patented automatic-locking-jaws grip the cable with no need for specialized tools. Simply trim your cable to length, push the end into the Quick-Connect® fitting, and the spring-loaded jaws automatically engage. You're ready to go!

Made from 316-grade stainless steel for weather-tough durability, low maintenance, and lasting beauty. Fittings also come with a silicone protection seal pre-inserted into the end, providing added protection against dirt and debris entering the body of the fitting. If necessary, our Quick-Connect® Release Tool can be used to disengage and remove or readjust the fitting.

There are two types of fittings: Fixed End fittings and Tension Adjustment fittings.

Each cable run must include at least one Tension Adjustment fitting.

TENSION ADJUSTMENT FITTINGS

- Include Tensioner fittings, Turnbuckles, Threaded Terminals, and Adjusters
- Tension is adjusted by spinning the tubular body on Tensioners and Turnbuckles, tightening the bolt on Threaded Terminals, or rotating the bolt on the Adjusters
- Tension Adjustment fittings can be paired with either a Fixed End or another Tension Adjustment fitting.

FIXED END FITTINGS

- Non-adjustable end termination fittings
- No tensioning capabilities
- Must be paired with a Tension Adjustment fitting

NOTE:

CableRail is made of marine grade stainless steel and will last for years with regular maintenance. Learn more: feeneyinc.com/Warranty-and-Care.

EASY INSTALLATION

TRIM CABLE TO LENGTH

INSERT CABLE INTO FITTING

JAWS LOCK AUTOMATICALLY

SPECIALLY ENGINEERED TOOLS FOR CABLERAIL

Quick-Connect® Release Tool

For releasing the Quick-Connect® jaws to remove or adjust fitting.

Wrench Wheel

An easy-to-use tool for tensioning Quick-Connect® Tensioner fittings.

Cable Lacing Needle

For quickly lacing cable ends through posts without snagging.

Cable Tension Gauge

Easy-to-use tool for checking cable tension.

Stainless Steel Cleaner Kit

Clean and maintain all stainless steel surfaces, fittings, and cables.
