# **Quick-Connect® Inset**

Feeney® Quick-Connect® Inset fittings are Fixed End fittings used when there is access to the outside post face. The Quick-Connect® Inset fits into a hole drilled in end post. Inset fittings can be used in level or stair applications. Must be paired with a Tension Adjustment fitting; use with Feeney Bulk Cable, sold separately.

#### **FEATURES & BENEFITS**

- For use with wood or metal frames, level or stair railings
- Made of Type 316 marine-grade stainless steel
- Inserts into post; the lip rests against the outside post face
- Use beveled washers for angled stair terminations and flat washers for added bearing surface on wood posts
- Must be paired with a Threaded Terminal or another Tension Adjustment fitting for one run of cable

### QUICK-CONNECT® INSET

Part#	CableØ	CØ	ВØ	L	DrillØ**
3146	1/8"	5/8"	3/8"	1-1/8"	3/8"
3147	3/16"	3/4"	17/32"	1-5/8"	9/16"
3148	1/4"	3/4"	17/32"	1-5/8"	9/16"

\*\*May counterbore with slightly larger diameter drill to embed Quick-Connect® body into post

FEENEY IS A MEMBER OF:

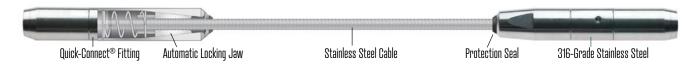

#### **QUICK-CONNECT® TECHNOLOGY**

Feeney Quick-Connect® fittings offer the flexibility of assembling cables in the field with simplicity and speed. Patented automatic-locking-jaws grip the cable with no need for specialized tools. Simply trim your cable to length, push the end into the Quick-Connect® fitting, and the spring-loaded jaws automatically engage. You're ready to go!

Made from 316-grade stainless steel for weather-tough durability, low maintenance, and lasting beauty. Fittings also come with a silicone protection seal pre-inserted into the end, providing added protection against dirt and debris entering the body of the fitting. If necessary, our Quick-Connect® Release Tool can be used to disengage and remove or readjust the fitting.

#### CABLE ASSEMBLIES

There are two types of fittings: Fixed End fittings and Tension Adjustment fittings.

Each cable assembly must include at least one Tension Adjustment fitting.

#### **TENSION ADJUSTMENT FITTINGS**

- Include Tensioner fittings, Turnbuckles, Threaded Terminals, and Adjusters
- Tension is adjusted by spinning the tubular body on Tensioners and Turnbuckles, tighting the bolt on ThreadedTerminals, or rotating the bolt on the Adjusters
- Tension Adjustment fittings can be paired with either a Fixed End or another Tension Adjustment fitting.

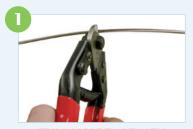

#### **FIXED END FITTINGS**

- Non-adjustable end termination fittings
- No tensioning capabilities
- Must be paired with a Tension Adjustment fitting

#### NOTE:

CableRail is made of marine grade stainless steel and will last for years with regular maintenance. Learn more: feeneyinc.com/Warranty-and-Care.

#### **EASY INSTALLATION**

TRIM CABLE TO LENGTH

INSERT CABLE INTO FITTING

JAWS LOCK AUTOMATICALLY

#### SPECIALLY ENGINEERED TOOLS FOR CABLERAIL

Quick-Connect® Release Tool

For releasing the Quick-Connect® jaws to remove or adjust fitting.

Wrench Wheel

An easy-to-use tool for tensioning Quick-Connect® Tensioner fittings.

Cable Lacing Needle

For quickly lacing cable ends through posts without snagging.

Cable Tension Guage

Easy-to-use tool for checking cable tension.

#### Stainless Steel Cleaner Kit

Clean and maintain all stainless steel surfaces, fittings, and cables.
